

MOB HOLDS CAPTIVE 400 U. S. DEPUTIES

CHICAGO STRIKERS DEFY THE FEDERAL GOVERNMENT

Second Regiment Ordered Out and Sent to the Rescue of the United States Men—Blue Island the Scene of Conflict—New Crews On Many Trains.

CHICAGO, July 2.—Four hundred United States deputies have been captured by a mob of two thousand strikers and sympathizers at Blue Island. Governor Altgeld has ordered out the Second regiment of this city to go to the scene at once. Serious trouble is expected. Passenger trains on nearly all the roads are running with new crews and nearly on time today. A mob is gathering on the tracks at Western Avenue and the police have been sent to the scene. Firemen and engineers on the Illinois Central road went on a strike yesterday afternoon. This was followed by the announcement that the switchmen and firemen on the Wabash, a Wagner line, had struck and that the Chicago, Milwaukee & St. Paul employees had voted to go out. Rumors of violence and minor riots reached the city from isolated crossings and out of the way points, but outside of these features yesterday was almost a day of rest with both sides—above the surface. Below the surface the general managers and executive committee of the American Railway Union were working with all the energy and vim of the day before. To-day both sides expect developments of a serious character. The general managers are preparing to meet violence with force, and the strikers are anticipating legal complications which may compel a new line of action.

At a late hour last night the engineers, firemen and trainmen of the Chicago, Milwaukee & St. Paul road held a secret conference with President Eugene Debs of the American Railway Union in the transfer house of the Western Avenue yards. The officials of the road expect the men represented at the meeting to join the men who went out on Saturday and yesterday and to have the entire road tied up to-day.

The Michigan Central switchmen held a meeting and asked that road not to interchange freight with the boycotted roads. The officials declined to accede to the demand and the switchmen walked out. The towermen of the Lake Shore & Michigan Southern road at the Fortieth street crossing struck at 3 o'clock yesterday and left that important crossing unguarded. The Lake Shore road succeeded in getting a train of twenty-three cars of dressed beef from the stock yards in the afternoon so cleverly that the strikers knew nothing about it until after the blockade had been run. At once a committee took the matter up to-day the road, as a penalty for cleverness, will probably be called upon to pay a costly forfeit, for the Lake Shore men are scheduled to go out in a body.

There is trouble on each of the twenty-three roads having terminals in Chicago. The United States government proposes to take a hand in putting down the strike. A bill for an injunction protecting all railroads from interference will be filed by the government this morning. It is so drawn as to involve those who disregard its provisions in the tremendous federal laws against conspiracy. Numerous arrests will follow, among others that of Debs, who, it is positively asserted, will be in custody in a few days at the outside.

A small army of deputies has been sworn in by the United States marshal to enforce the legal action that will be taken by the government. Large supplies of revolvers were purchased yesterday and 150 riot guns were delivered at the marshal's office this morning. Deputies in large force are to be sent to the scene of every disturbance, actual or threatened. If they are found unable to cope with any situation that arises the marshal instantly will call on the federal government for military reinforcements. The troops at Fort Sheridan are in readiness to move at a minute's notice. A special train of ten cars stands on the tracks at the fort ready to bring them into Chicago in half an hour. Sheriff Gilbert has sworn in 400 deputies. He will increase his force this morning. He is in constant communication with the governor and has posted the latter on the situation.

All of the national guardsmen in Cook county have been directed to be ready to report to their respective armories. Members of the various regiments were requested not to leave yesterday. While the governor proposes to take the leading movement to put down the strike the state authorities are equally alert.

TROOPS ARE OUT.

United States Soldiers Sent Against the Strikers in Colorado.

DENVER, Colo., July 2.—Federal troops are about to take hold of the Pullman boycott situation at Trinidad. On Saturday Receiver Trumbull of the Union Pacific, Denver & Gulf stream applied to Judge Hallett of the United States court for an injunction restraining the strikers from interfering with the property or operation of trains of their road. The order, was

granted, and last night over 100 deputy United States marshals were sent to enforce the order. When the officers arrived there they were immediately surrounded by a mob of 1,000 strikers and disarmed. The marshals made no resistance, as they were not sufficient in number to accomplish anything. A telegram was sent to Attorney-General Olney explaining the situation and urging that troops be sent out at once.

WASHINGTON, July 2.—Dispatches were received by Attorney-General Olney last evening from Judge Hallett of the United States court, Colorado, and United States Marshal Israel, stating that the railroad strikers were refusing to allow trains to run, and asking that United States troops be sent from the command of Gen. McCook at Fort Logan. Mr. Olney immediately conveyed the dispatches to the white house, and Secretary of War Lamont, Gen. Schofield, the attorney-general and the President held a conference. After the conference Gen. Schofield telegraphed to Gen. McCook ordering him to proceed at once to Trinidad with troops. The granting of the request was also telegraphed to the United States officials.

TRAIN BLOCKADED AT DECATUR.

Hundreds of Passengers Call on the State for Relief.

DECATUR, Ill., July 2.—Seven Wabash passenger trains, including the Chicago & St. Louis vestibule trains with Wagner sleepers, and a long line of freight trains are tied up in Decatur. They include three mail cars and several tons of through mail to Chicago and St. Louis. There are about 400 passengers held on the trains, 100 of whom are on their way to Chicago. The strikers at a meeting refused a petition signed by the passengers asking that the trains be allowed to move, so that they could get home. Strikers also refused to move the mails.

Then the passengers wired Gov. Altgeld for assistance in moving the trains. The governor has wired Sheriff Perl for information as to the situation.

The men held a meeting this morning at which were present brakemen, firemen, conductors and switchmen. It was decided to stay out.

This is the terminus on all the divisions for all the crews in charge of the trains tied up, and engineers and firemen can not be induced to get on the engines. The passengers are making the best of the situation and hourly hope the trains will move. The Wabash officials are powerless to move the trains without engineers.

The live stock on the freight by permission of the strikers was put in the stock yards.

At a meeting of the Elgin, Joliet & Eastern branch of the American Railway Union the men voted to strike and that road is completed tied up.

SPREAD OF THE FIGHT.

Eastern Lines to Be Tied Up Tuesday Night.

PITTSBURG, Pa., July 2.—Over 300 delegates, representing 700 lodges of the American Railway Union, met in Pittsburgh last night and took action regarding the Pullman boycott. The delegates came from almost every town in Pennsylvania. As stated it was decided to strike the block Tuesday, and Wednesday night it is expected all the men will be out. At a meeting of the engineers and firemen in Allegheny it was announced that the railroaders of the Fort Wayne who had been suspended on account of lack of business were asked to go Chicago to take the places of strikers, and upon their refusal their names were stricken from the books. This is considered by the men equivalent to a discharge. Should such be the case, it is thought it would be ground for a grievance. Summing up all reports, it looks as though the strike will reach here Tuesday, when a general tie-up will result. The American Railway Union is well organized in this section.

Strike Resolutions in Congress. WASHINGTON, July 2.—It is understood some of the radical labor men are to introduce to-day, either in the senate or house, a resolution asking for information as to the action of Attorney-General Olney in instructing United States marshals to protect mail trains. The resolution, if offered, will seek to bring out the fact that the attorney-general is interested in corporations and particularly in the Santa Fe road. No one seems to know who is to be sponsor for the resolutions of inquiry, but it is said they are in the hands of a populist or democratic labor man. It is to be the means of bringing the Pullman strike before congress.

To Tie Wabash Eastern Division. St. Louis, Mo., July 2.—A telegram was received here late last night from President Debs, ordering out the conductors, firemen and brakemen on the eastern division of the Wabash system, and it is reported that portion of the road is entirely blocked. Not until Tuesday morning is the crisis expected. Then the strikers, according to the policy adopted by the railroads here, will cease to be employees of the roads and Terminal association, and new men will be put in their places. If there is to be any serious trouble it will doubtless occur then.

Congestion Believed at Cairo, Ill. CAIRO, Ill., July 2.—The quiet which prevailed in Cairo yesterday is in marked contrast with the excitement of Saturday and everything indicates there will be no more opposition to the running of mail and passenger

trains on the Illinois Central. Trains are moving without Pullmans. It is known that warrants have been issued for at least three months of the most prominent strikers, and it is expected they will be arrested and taken to Springfield charged with obstructing the mail trains.

Hocking Valley Telegraphers.

TOLEDO, Ohio, July 2.—Mark Wild, chairman of the adjustment committee of the American Railway Union for the Hocking Valley, says the telegraphers on that road were ordered out, and the telegraph offices along the line will be closed to-day. This will either stop altogether or seriously affect the passenger traffic, as it will be impossible to run trains without great danger if the telegraph operators are not at work.

Expect a Tie-Up at Milwaukee.

MILWAUKEE, Wis., July 2.—If the Chicago, Milwaukee & St. Paul switchmen adhere to the resolutions which were passed at a meeting held last night and which lasted until near daylight this morning that road will be tied up from South Milwaukee to West Milwaukee to-morrow. The 300 switchmen in this city have resolved to support the strike.

The Northwestern firemen in this city have decided to go out. This move will completely cripple the Northwestern at this point.

May Strike in Chicago.

CHICAGO, July 2.—By a resolution adopted at the meeting of the Trade and Labor assembly yesterday afternoon the members of the executive committee were given absolute power to act in support of the American Railway Union until the boycott and strike are settled. They may call out all the members of the labor organizations. It is probable that the Building Trades council will hold a special meeting to take similar action. Should this be done every union workman in Chicago could be taken from his work in twenty-four hours.

Hammond Strikers Arrested.

HAMMOND, Ind., July 2.—United States Marshal Hawkins left here for Indianapolis at 11 o'clock yesterday with nine of the strike leaders as prisoners, arrested on warrants sworn out before United States Commissioner Van Buren for obstructing and retarding passage of the United States mails. No difficulty was experienced by Marshal Hawkins in serving the warrants. Everything is quiet here now, and it is not likely there will be any more stopping of trains here.

Men Called Out at Council Bluffs.

COUNCIL BLUFFS, Iowa, July 2.—President Warren of the American Railway Union here received a telegram from Debs late last evening ordering him to call out the men in the Rock Island employ. The order was obeyed. Union men say they expect an order calling out the Northwestern here to-night or to-morrow.

Strike Tightening at Sioux City.

SIoux CITY, Iowa, July 2.—The strike is tightening here. Passenger trains are still running on the Illinois Central and Omaha roads with Pullmans, but are escorted out of the city by a force of deputies that numbered 140 men. Yesterday all firemen, conductors and brakemen refused to work.

General Tie-Up at Indianapolis.

INDIANAPOLIS, Ind., July 2.—A tie-up took effect last night at 10:30 on the Vandalia. It will extend to the Pan Handle, Big Four, Monon and Erie. About 600 men attended the American Railway Union meeting in the afternoon when the action was determined on.

Both Sides Confident at St. Paul.

ST. PAUL, Minn., July 2.—The strikers here are more than ever confident of victory and their advices from various points were sanguine. The Northern Pacific employees at Mandan, N. D., decided against the strike and will have nothing to do with it.

Tie-Up Expected at Independence, Iowa.

INDEPENDENCE, Iowa, July 2.—All trains are running on this section of the Illinois Central. The road expects a tie-up any moment.

MINERS WILL NOT WORK.

Say Majority of Operators Must Consent to 50 Cent Schedule.

PHILADELPHIA, Pa., July 2.—The mining situation in the Clearfield and Beach Creek regions seems to be in a more muddled condition than at any time since the suspension. In the Houtzdale district six mines are at work at the compromise rate, two operated by the United Collieries company and the others being small concerns. One mine is at work in the Osceola district. In the Beach Creek and Phillipsburg districts everything is at a standstill, the men refusing to resume work at any price until a majority of the operators shall have consented to pay 50 cents a ton.

The miners have finally decided to hold their conference at this place July 3. The convention is for the purpose of considering the situation and agreeing on united action. The Berwind-White company's mines at Horatio and Anita are still working under protection of the deputies and the production is increasing daily. The officials will not recognize the union under any circumstances.

China Prepares for War.

SHANGHAI, July 2.—It is reported here that the viceroy has ordered twenty battalions of Chinese troops to sail immediately for Corea, as there is little hope of an agreement being reached with Japan in regard to that country.

NO TROOPS ON HAND AT DANVILLE, ILL.

STRIKE TAKES ON A WAR LIKE ASPECT.

Governor Altgeld Has Soldiers On the Way to Beleaguered Trains and Serious Trouble Is Feared—United States Forces Ordered Out In Colorado.

DANVILLE, Ill., July 2.—The militia had not reached here at noon. The passenger and mail trains are still in the hands of the strikers. The situation is serious.

SPRINGFIELD, Ill., July 2.—Gov. Altgeld has ordered six companies of the Illinois National Guard to Danville and three to Decatur to liberate the trains held by strikers.

The following companies are ordered out to Danville: E of Petersburg, G of Lincoln, L of Peoria, I of Jacksonville, A of Pittsfield, and K of Delavan.

The following go to Decatur: H of Decatur, D of Champaign, and F of Bloomington.

Yesterday the governor received a dispatch from W. H. Lyford, general counsel for the Chicago & Eastern Illinois, stating that for more than forty-eight hours past all mail trains had been tied up at Danville and forcibly prevented from moving by a crowd of strikers and their sympathizers. The governor immediately wired the sheriff to inquire whether he was able to protect the traveling public and move the trains, and to the county judge asking for information regarding the situation. At 10 o'clock last night the sheriff telegraphed for 100 rifles and the governor answered that he had no arms left but would send troops.

At 5 o'clock in the afternoon the governor received a telegram from Decatur, purporting to be from 500 passengers detained in the Union depot there. After some correspondence with the sheriff he received at 10 p. m. a message from Sheriff Perl stating that although he had been able to keep order so far he could do so no longer and asking for troops. The governor sent for Brig.-Gen. Burley and ordered him to send six companies to Danville and three to Decatur to release the trains before noon if possible.

Adjutant General Orendorff got a telegram from Sheriff Gilbert of Chicago stating that arms were necessary for his deputies in preserving the peace in Cook county and that he had made requisition for 500 stand of arms and the necessary ammunition. Gen. Orendorff replied that he had sent 200 rifles and 1,000 rounds of ammunition and would send more in a few days if needed.

Memphis Struck by a Windstorm.

MEMPHIS, Tenn., July 2.—A wind storm of unusual severity swept over eastern Arkansas and the western portion of Tennessee last night. Telegraph, telephone and trolley wires were prostrated in Memphis, and street car traffic was seriously crippled. Steamboats were blown from their moorings on the river and drifted helplessly before the wind. Five barges of coal were sunk near Jackson Mound park.

Pullman Confers with Labor Leaders.

CHICAGO, July 2.—George M. Pullman, represented by P. E. Studebaker, was in conference with President Debs and Vice-President Howard from 10 o'clock yesterday forenoon until 4 o'clock in the afternoon. The conference was at the request of Mr. Pullman. What decision was arrived at can not be told. Another conference will be held to-day.

Zimmerman Beaten by a Belgian.

PARIS, July 2.—A. A. Zimmerman, the American bicyclist, was beaten yesterday in a race at the Velodrome by Holodroun, a Belgian. The contest was exciting.

CARNOT RESTS IN THE PANTHEON

Funeral Procession a Remarkable Display—Military Bodies.

PARIS, July 2.—The remains of the late President Sadi Carnot, the murdered chief magistrate of France, struck down by the hand of Santo Casario, the anarchist, at Lyons Sunday last, were deposited in the Pantheon yesterday by the side of the remains of his grandfather, Lazare Carnot, the "Organizer of Victory."

The funeral was made the occasion for one of the most remarkable civic and military displays in the history of France. Crowds began to gather along the Champs Elysee, the Rue de Rivoli, and about the streets on the Ile de la Cite from early in the evening. People camped all night, quiet and mournful, discussing the tragedy and cursing the assassin.

Lines of troops—infantry, cavalry, artillery, and Gardes Republicaines—were to be seen on all sides and mounted orderlies dashed here and there, bearing messages to and from the staff of Gen. Sausser, the military governor of Paris. The mourning emblems displayed on all sides gave a mournful tone to everything and helped to increase the gloom which spread over the vast assemblage.

All classes of people, young and old, rich and poor, crowded to the funeral from all parts of Paris and from every department of France. At exactly 10:25 a. m. the procession began its march towards the Cathedral of Notre Dame.

A squadron of Republican Guards emerged from the grounds of the palace, and proceeded slowly down the Avenue Gabriel and the Champs Elysees, the band of the guards playing a funeral march. All the troops presented arms and the people uncovered their heads, in spite of the blazing sun.

Following the band of the Garde Republicaine came four of the principal attendants of the Elysee with tricolor cocades in their hats, and bearing President Casimir-Perier's splendid wreath of roses and palms across two poles. Then came two carriages containing the priests who were to escort the body to Notre Dame.

After the clergy came a six-horse funeral car which had been used at the funerals of Presidents Thiers and MacMahon. The trappings of the car and horses were richly embroidered with silver, and angels with outstretched wings surmounted each corner. The casket was covered with the tricolor of France, and was heavily draped with crepe. There were no flowers on the funeral car. The services at the cathedral were most impressive. Representatives of every civilized nation on earth were present.

A panic occurred at the Arcades of the Rue de la Rivoli, near the Rue Campon. As the end of the procession passed an officer's horse shied and backed into the crowd. Those behind the first few lines of the crowd were not aware of the cause of the disturbance, and some foolish persons shouted, "A bomb."

The affrighted sightseers made a desperate rush in their efforts to escape what they believed to be an impending explosion. Stands and benches packed with people were overturned, some persons fell to the ground and were trampled under foot and women screamed and fainted. The procession was stopped, and when the police succeeded in reassuring the crowds it was found that, although numbers were hurt, no one was seriously injured.

REQUIEM SERVICES IN CAPITALS.

Those Who Represented the Reigning Sovereigns at the Various Cities.

PARIS, July 2.—Requiem services in honor of Carnot were held yesterday in most of the leading cities of Europe and were attended by the French diplomats stationed in the various cities. In Berlin the services were held in the Roman Catholic church of St. Hedwig. Gen. Winterfeld was present in behalf of Emperor William and the chancellor.

In St. Petersburg St. Catherine's Catholic church was the scene of the services at which the Grand Duke Alexis represented the czar. Other grand dukes and ministers were present.

The services in the Catholic cathedral in Constantinople were attended by representatives of the sultan, King Alexander of Serbia, and the khedive. In Madrid the Duke of Medina represented the Queen Regent at the mass said for the repose of the soul of the dead president.

In Vienna Prince Lichtenstein represented the emperor at the requiem services. Baron Nopeza was present as the representative of the empress. Memorial services were also held in New York and Washington yesterday.

Farmers Help the Strikers.

EMPORIA, Kan., July 2.—The following is a part of one of a series of strong resolutions adopted by the local Farmers' Alliance lodge here in sympathy with the American Railway Union, and the members of the lodge state that similar resolutions will be adopted by all other lodges of the state: "Our people have pork, corn and beef on the prairie and wheat in the bins, all of which are yours."

Bayard to Be Senator.

WILMINGTON, Del., July 2.—Thomas F. Bayard, United States ambassador to Great Britain, has decided to take a hand in the coming election in this state, and it is regarded as probable, in the event of a democratic general assembly being chosen, that he will be a candidate to succeed Higgins in the

THROUGH A TRESTLE TO THEIR DEATH

FOUR KILLED IN A WRECK THIS MORNING.

Montreal Express on the Canadian Pacific Breaks Through a Span Between Askith and Moosehead and Many Passengers are Killed or Badly Injured.

GREENVILLE JUNCTION, Me., July 2.—The Montreal Express on the Canadian Pacific road, went through a trestle this morning between Askith and Moosehead. Four passengers are reported killed and many injured.

Warship Strikes the Nautilus.

GRAVESEND, July 2.—The steamer Nautilus of Hamburg and a Dutch sailing warship were in collision yesterday morning in the North sea during a dense fog. The steamer's port side was badly stove in, the bridge was carried away and she sustained other damages. During the excitement ten of the steamer's crew jumped aboard the warship.

The Seawater Is Damaged.

GLASGOW, July 2.—The Allan line steamer Scandinavia, Capt. Gunsen, which arrived at Greenock to-day from Boston, reports having been in collision with an iceberg in midocean. A large hole was knocked in the steamer four feet above the water line and her bowsprit and figurehead were carried away.

DAY'S NEWS FROM WASHINGTON

Tariff Bill to Leave the Senate in a Few Days—The House Ready.

WASHINGTON, July 2.—The senate to-day enters upon the fourteenth week of the tariff debate. It is expected that the final vote previous to returning the bill to the house will be taken before adjournment to-morrow night. There is no agreement to this effect, but democratic and republican senators generally express the opinion that this can be accomplished. They say that the end could have been reached last week but for the loss of two days, Monday and Saturday.

There is still, however, a good deal of work to be accomplished before the end can be reached, and it lies in the power of any senator who may feel so disposed to delay action indefinitely. Some of the amendments yet to be introduced by the finance committee will provoke more or less discussion. The sugar duty and the free wool question are expected to be made the object of speechmaking by the republicans and populists. Much curiosity is felt over the attitude of populists on the sugar schedule. They say that whatever they may do they will do nothing to prolong debate to any extent. If the bill is not voted upon as a whole before the senate adjourns Tuesday the democrats will try to secure a Fourth of July session. They will also probably ask the senate to hold night and day sessions Monday and Tuesday if necessary to secure action. When the senate bill is disposed of the appropriation bills on the calendar will be taken up.

Speaker Crisp is seeing that the decks are kept clear in the house of representatives for the return of the tariff bill. This accounts for the failure of the rules committee to agree on any definite program of bills to be considered during the coming week. The legislative business is merely drifting, as there is no desire to tie the hands of the house by set speeches which might interfere in this body in consideration of the tariff bill when it comes over from the senate.

The expectation of Chairman Wilson and other ways and means members is that the tariff bill will pass the senate Tuesday, but it is not believed the official notification will come to the house before Thursday. The first move when the bill is reported back will be a formal motion by Mr. Wilson that it be referred to the ways and means committee. It is expected that this reference will be made without objection. The tariff bill will then be referred to the secrecy of the committee for some days, but representative Bryan stated last night two days ought to suffice for such work as the committee would do. In that case the disagreement of the house and the submission of the bill to conference may occur Friday or Saturday of the coming week, although this would be exceptional dispatch.

Owing to the lack of a program the time of the house during the week will be taken up by such bills as manage to secure recognition. The Cooper bill to tax greenbacks is likely to be taken up to-day, and to be on until the adjournment for the Fourth of July. After the Fourth the important pooling bill would stand the best chance of consideration, but Representative Patterson who has it in charge says he will not trust such an important bill to the consideration of the handful of members present after a holiday. He says the bill will require three or four days, so he will let it go over until week after next. This will probably make way for the bill for the election of United States senators by direct vote of the people. Mr. Crisp and other house leaders are anxious to have this bill considered, and one of the members of the rules committee said to-day there was such a general sentiment favorable to it that it might come up at any moment. Should the house find itself unoccupied either the judiciary or commerce committees will be given a day for their various bills.

DON'T CARE TO QUIT ENGINEERS SAY.

C. & N. W. MEN IN JANESVILLE
NOT STRIKING.

Brotherhood Was Not Well Treated
By the A. R. U. and the Members
Are Disposed to Keep their Hands
Out of this Affair—Moulton in
Chicago.

Trains left Janesville regularly to-
day and Brotherhood engineers who
live here declared that Janesville
would not feel the strike.

"The A. R. U. refused to help the
Brotherhood when it needed help,"
said a Northwestern engineer this
morning, "and the Brotherhood will
reciprocate by keeping its hands out of
this affair."

There has been some trouble on the
Northwestern however. The Chicago
A. R. U. committee in charge of the
Northwestern system reported that
the north bound express due to leave
Chicago at 8:30 yesterday morning
went out without her engineer and
fireman. To get the train away As-
sistant Superintendent Moulton, from
Janesville, was compelled to act as
engineer. The Sunday morning
newspaper train, carrying Chicago
papers for the north and west, was
over an hour late in leaving the city,
her firemen leaving the engine and it
being impossible to fill his place until
one of the grate cleaners
from the roundhouse was secured.

One member of the committee was
confident that there would not be a
train moving on the Chicago termi-
nals of the Northwestern by night.
Advices were received from the en-
gineers and firemen of the road who have
run out of Chicago that they
would not be at their posts this morn-
ing.

Meeting of Milwaukee Men.

At Western avenue and Indiana
street Sunday morning an open air
mass meeting was held of all the men
employed in every branch of train
service on the Milwaukee road within
terminal limits. A resolution was
passed without a dissenting voice that
the men refused to work. A similar
meeting was held at Elston, on the
Grand Trunk, at 3 o'clock, which was
attended by engineers, firemen and
switchmen and at which a resolution
was passed that no work should be
performed after to-day. The shop-
men of the Northwestern held two
open-air meetings at Fortieth and
West Lake streets and listened to re-
ports of the situation all over the city.
These shopmen have been striking for
two days and will not go back to
work until the strike is satisfactorily
ended. When the men were informed
that Assistant Superintendent Lawson,
of their road, was doing their switch-
ing in the North Chicago yards and
firing a switch engine there were wild
cheers.

O'BRIEN DIDN'T TRY TO DEFAUD

Sale of the Franklin House Declared to
Have Been Perfectly Straight.

L. C. O'Brien was cleared in the cir-
cuit court Saturday afternoon. The
court held that he was not liable in
the garnishee proceedings brought by
Loeb & Gundel against William Allen.
Allen was formerly the proprietor of
the Franklin hotel. February 27, he
sold his fixtures and furniture in the
hotel to L. C. O'Brien and left the city
quite suddenly. He also left a few
creditors. Mr. O'Brien sold the same
fixtures to Charles W. Price, who is
now managing the hotel. Messrs.
Loeb & Gundel took an as-
signment on all accounts against Al-
len owned by F. S. Winslow and be-
gan action upon it and an account of
their own, attaching the fixtures and
furniture and garnishing O'Brien,
claiming that he assisted Allen to de-
fraud his creditors. Judgment was
obtained against Allen. The evidence
on the trial of the garnishee action
demonstrated that O'Brien took the
title in his name at the request of
Price, who didn't know Allen and
wanted a bill of sale from O'Brien;
that O'Brien paid Allen five hundred
and twenty-five dollars in cash and
concealed the matter in no way; that
negotiations for the sale had extended
over a period of several weeks and
were not secret; that the price paid by
O'Brien was a fair one and that he did
not assist Allen cheat and defraud his
creditors.

THE MAGAZINES OF THE MONTH

The Quarterly Illustrator.

Remarkable is the richness of the
summer number of the Quarterly Illus-
trator. It contains 362 illustrations
by 150 well known artists. Strange
though it may seem, The Quarterly
Illustrator is the only periodical in
this country that is distinctly devoted
to American art. The new number is
varied in its contents. Charlotte
Adams' paper on cats and dogs in art
has the advantage of a suite of illus-
trations by J. H. Dolph, who is im-
mensely clever as an animal painter.
The graphic, graceful pen of Julian
Hawthorne is here concerned with the
work of Harley D. Nichols, whom he
fity characterizes as a "magician of
line." Hillary Bell, an excellent
critic, considers "The Natural Bent
of an Artist's Mind." Elizabeth
W. Champney, who writes well about
everything, touches upon Belgian art,
and especially the work of Edgar
Farasyn; while Charles de Kay reverts
to Munich for his theme, and finds it
in the strong paintings of Peter Paul
Muller. James D. Smillie, himself an
etcher of high rank, rehearses the
progress of etching in this country.
Clara McChesney's illustrations ad-
mirably fit Alfred Trumble's "Influ-
ence of Dutch Art," as do Lyell Carr's
southern pictures the article by Mar-
guerite Tracy on "A New Field in
American Art." John Gilmer Speed,
with pen, and J. C. Nicoll, with brush
celebrate the sea.

"July Review of Reviews."

A striking full-figure portrait of
Captain Alfred T. Mahan, United
States navy, on whom Cambridge has
recently conferred the degree of Doc-
tor of laws, forms the frontispiece of
the Review of Reviews for July. The
number contains many other interest-
ing portraits—populist senators and
representatives at Washington, John
W. Goff, the successful counsel of the
New York senate's police investigation
committee; Sir George Williams, the
founder of the Y. M. C. A.; the late
William Walter Phelps, Professor Wil-
liam D. Whitney, the Hon. George
Peabody Wetmore, Rhode Island's
senator-elect; M. Cassimir-Perier and
Charles Dupuy, the French statesmen;
Samuel Gompers, President of the
Federation of Labor; the Coxeyite
leaders, Professor Henry Drummond,
Governor-elect Lord of Oregon, and
other people prominently before the
public.

The Arena For July.

Among the notable and valuable ar-
ticles in July Arena are Mrs. Helen H.
Gardner's paper on "Environment:
Can Heredity be Modified?" a question
now being discussed by all thought-
ful people; "Whittier's Religion" by
Rev. W. H. Savage; "Monumentalism
and Protection," a masterly analysis
of the tariff and financial questions,
showing their intimate relation, by
C. S. Thomas, one of the ablest bi-
metallists advocates in the country.
"Occult Science in Tibet" is treated
by Heinrich Hensoldt, Ph. D. "India
Silver, Wheat and Cotton" by Samuel
Leavitt is another splendid presenta-
tion of the arguments for bi-metallism.
James L. Hughes criticizes Professor
Goldwin Smith's arguments against
the enfranchisement of women, and
subjects that eminent scholar's do-
mestic prejudices to the severe test of
logic.

"Romance" Lowered in Price.

Romance, the monthly magazine of
complete stories, which has won so
enviable a reputation, is brought
within reach of a far larger public
than heretofore by the reduction of
its price from 25 to 10 cents. Every-
body loves good stories, but they are
notoriously hard to find. The editor
of Romance knows how to find them,
and people who have not bought it be-
cause of its high price can now get
for a dime the best monthly collection
of stories ever offered. Humor, pa-
thos, love, adventure, history, mystery
are happily blended in the dozen tales
contained in the July issue.

"The Season" For July.

"The Season" for July just received.
The pretty midsummer toilettes are
unusually handsome, and suggestive
both of comfort and beauty. The
large colored plate 1054 is devoted to
misses and children, and is new and
seasonable. Plate 1057 gives a hand-
some summer toilette and a promenade
costume. Plate 1058 gives five beau-
tiful illustrations of costumes and the
newest styles in millinery.

WHO KILLED CRONIN?

A MINISTER ASKS.

REV. S. P. WILDER TRACES THE
RESPONSIBILITY.

Does Not Rest on the Man Who Dealt
the Blow, Alone, But on the
People Who Made It Possible
—Just So It Is Of the Sa-
loon.

"Who killed Dr. Cronin?" was the
subject on which Rev. S. P. Wilder
addressed the union meeting at the
Congregational church Sunday even-
ing.

Mr. Wilder said that the adequate
punishment or the lack of adequate
punishment for crime depends upon the
accurate location of the responsi-
bility. Because of lack of accurate
location of responsibility many crimes
go unpunished. In some cases this is
easy to do but in many cases not one
but many persons are responsible for
crime committed or for an evil exist-
ing in a community and all who in
any way lend their aid are guilty and
liable to the same punishment should
their guilt be proven.

He briefly reviewed the Cronin mur-
der and showed that legally not one
man but many killed Dr. Cronin. The
man who called the doctor from his
house, the one who procured the horse,
the owner of the horse, the man who
painted the floor to cover the
blood stains, the
purchaser of the trunk were, if they
knew of the crime, just as responsible
as the person who struck the blow
that killed. So those who helped to
dispose of the body and those who
knew anything about the case and did
not tell it were responsible, but in a
lesser degree. He then applied the
law morally, and led up to the saloon
question. Who is responsible for the
existence of a saloon in a community?
Under legal principles morally applied
not only the proprietor, the bar-tend-
er, the consumer, the city fathers who
give the license, and those who vote
for license are responsible, but the
architect, builder, painters, cabinet mak-
ers, merchants from whom fixtures are
purchased, the newspaper that does
the advertising and the farmer who
raises the grain used in making the
liquors are alike responsible for the
saloon if they know to what use these
things are to be put.

ROCK COUNTY NOTES AND COMMENT

Week's Doings in South Clinton.

SOUTH CLINTON, July 2.—Mrs.
Jacket is much better, so that she
can ride out a little, but is still very
weak. Mrs. Carrie Dresser drove to
Whitewater Wednesday to attend the
normal school commencement exer-
cises. She was accompanied by Miss
Blaser. Mrs. Achsah Dresser is mak-
ing her headquarters at W. E. Dress-
er's for the present. Another of
South Clinton's old settlers passed
away and was buried last week Tues-
day, Mr. Gulick Knutson, who had
resided in this vicinity for some forty-
five years. He had been in feeble
health for some time. Our boys and
girls from college, university and high
school are with us once more, also our
teachers. Glad to see them. Don't
forget the picnic in Mr. Duxstad's
woods the fourth. Hattie Bellinger
has been home for a few days. Some
of our people attended the flag raising
in the Osborne district. They report
the burning of William Han's barn
during the closing of the exercises.
The neighborhood prayer meeting
will be at Charles Dresser's next
Thursday evening July 5. Ervin
Bates lost their little daughter by
pneumonia not long since. She was
buried in Clinton. Warren Bates and
family of Beloit attended the funeral
of little Bulah Bates.

Crisp South Turtle Notes.

SOUTH TURTLE, July 2.—At last ac-
counts Osbert Jack was reported a lit-
tle better. J. H. and Ross Murray
played at Clinton high school com-
mencement exercises last Friday even-
ing. Miss L. tie Murray, of this place,
and Miss Grace Murray, now a resident
of Clinton, were among the graduates
of Clinton high school. At the annual
meeting of the Sunday school in the
Murray district there was an entire
change of officers. The new ones
were as follows: Superintendent, Mrs.
Carrie H. Dresser; assistant superin-
tendent, E. C. Benedict; secretary, E.
C. Dresser; treasurer, G. B. Dresser.
Mr. Blaser is reported much better.
Mrs. Isham has been visiting in Wat-
erford. Miss Rosetta Blaser attended
commencement at Whitewater. The
graduating exercises in the Murray
district were well attended. The
programme was very fine, especially
the music. Georgia Murray, Frank
Crockett and George Dresser were the
graduates. Mrs. Achsah Dresser
spent the night at Parley Isham's not
long since. Mr. William's baby is
better. The prayer meeting at John
Crockett's was well attended. Mrs.
Rhoda Johnson Parker and little
girl have returned from the east.
May Crockett returned home on Fri-
day, having completed her year as
one of Milton's teachers. The Sunday
school in the Murray district has re-
ceived an invitation to join the nei-
ghoring schools in a grand Fourth of
July picnic in Mr. Wyman's woods.
Mrs. Gordan accompanied by her sis-
ter and daughter, took in the gradu-
ating exercises in Clinton Friday even-
ing.

ST. CLAIR BURIED IN MARENGO

Coroner's Jury Find that Heart Disease
Caused His Death.

The remains of Thomas St. Clair,
who was found dead Saturday in his
room at the Railroad hotel, were
taken to his home at Marengo, Illinois,
Sunday morning, at 6:25 o'clock, on
the south bound limited. Charles St.
Clair of Marengo, a son of deceased,
and W. A. Sheldon and wife of Belvi-
dere, son-in-law and daughter, arrived
in the city at 4 o'clock Saturday after-
noon, and at once took charge of the
remains for shipment home.

The jury summoned to investigate the
cause of death, assembled in the office
of Justice Prichard at 4 o'clock Sat-
urday afternoon, and after hearing the
testimony of Dr. Henry Palmer, who
examined the body, returned a verdict
that St. Clair came to his death on ac-
count of heart trouble. The details
were substantially as published in
The Gazette Saturday evening.

ANOTHER MEETING AT THE
DRIVING PARK.

Four Events For Horses Marked at
2:16 or Better—The Best Stables
On the Circuit Will Be Here
As the Date Is a Convenient
One.

A red-hot trotting meeting this
month is the promise.

Many horsemen have urged that the
third week in July be reserved by the
Janesville association. They were so
well treated in June that they want
to come again, and the northwestern
circuits are arranged just right to
bring them here. Entries for the
week will close July 11, but time
made after July 9 will be no bar.

Fast time may be looked for.

The horses have had work enough
to be at their best and four fast
classes find money hung up here to
tempt them. The 2:12 class pacing,
the 2:13 class trotting and both of
the 2:16 races will bring out the
speediest flyers in the west. Here is
the programme:

TUESDAY, JULY 24.

Fair and Beautiful Lands Across the Sea.

Give promise to the ocean voyager of health
and pleasure, but there is a broad expanse of
waters to be passed that rise mountain high in
rough weather and previously disturb the un-
accustomed stomach, more particularly if it is
that of an invalid. Moreover, the vibration of
the vessel's hull caused by the motion of the
screw of a steamer, a change of water and lat-
titude, and abrupt transitions of temperature,
cannot without a medicinal safeguard, be en-
countered with impunity. For sea sickness,
and prejudicial influences of air and water,
Hostetter's Stomach Bitters is a standard safe-
guard. For sailors, yachtsmen, mariners, com-
mercial travelers, and people bound on a sea
voyage or inland jaunt, should always be pro-
vided with it. Incomparable for malaria,
rheumatism, neuralgia, sleeplessness, loss of
appetite, sick headache, biliousness and constipation.

Grand Fourth of July Celebration.

The citizens of Madison have ar-
ranged for a grand celebration on the
1st of July, and for the accommoda-
tion of those who desire to attend,
the Northwestern line will run a spe-
cial train to Madison leaving Janes-
ville at 6:25 a. m. Returning, this
train will leave Madison at 10:00 p. m.
after the conclusion of the exercises.
For reduced rate excursion tickets

WOULD BE A SISTER TO HIM.

But the Blue-Eyed Beauty Was Surprised When Taken at Her Word.

The average summer girl who has scruples in keeping half a dozen admirers on the string at one time has many strange peculiarities. Conspicuous among them is her propensity for putting off a fellow month after month, until the thing gets to be monotonous. She hates to see him go, somehow, though she knows from the beginning she's not willing to go with him. A young man of Richmond, Va., proved himself the victor in a rather unpleasant feature of the program, says the Times. For some time he had been screwing up his courage to spring the all-important question. He thought he could see the way perfectly clear, for his Venus had been especially nice to him. One evening he worked himself up to the point and determined to have some kind of an answer. The usual amount of eloquence having been exhausted, the romantic young man was in the act of appropriating one of the maiden's lily-white hands for a quiet, harmless little game of palmistry.

"No, no," said the blue-eyed girl, shrinking slightly from her admirer. Then she assumed a motherly kind of attitude, as though to give a wandering boy a bit of advice, and said:

"Now, George, you know I'm devoted to you in a way, and I will always be your friend—"

"I don't like friends," broke in the young man.

"You don't?"

"No, they're too expensive."

"Then, I want it understood that hereafter I'm your sister."

"Agreed," said George, and they sealed the contract by a cordial grasp of the hand.

The next morning the young lady received a bulky-looking package. The address was in George's handwriting. "Bless his dear heart!" she said, opening the bundle. To her great surprise the usual box of roses was this time substituted by a different article. Half a dozen pairs of black socks, each with a little hole in the toe or heel, as if by way of ventilation, caused the girl to open her eyes in "holy horror." Inclosed in the bundle was the following note:

MY VERY DEAR SISTER—Won't you darn these indispensable articles for me? Am in no hurry for them, so take your time. Affectionately, your brother
GEORGE.

Changing His Mind.

While rounding the post at the head of the stairs on his way to bed the sleepy old father of the family knocked his tenderest corn against something hard. In the recoil he upset a broom, a dust-pan and a coal bucket that somebody had left standing near the top step, and they went banging down the stairway. In the parlor sat young Spoonamore. As he listened to the horrible racket and the energetic local outburst from the floor above that accompanied it he turned pale.

"Is your father taking that method of showing his displeasure at my coming here, Miss Pinkie?" he whispered, anxiously.

"You needn't be afraid of papa, Mr. Spoonamore," she answered. He has changed his mind about you."

"Is—that the way he changes his mind?" he inquired, nervously fingering his hat.

They Both Wept.

When Lawrence Barrett's daughter was married Stuart Robson sent a check for \$5,000 to the bridegroom. Miss Felicia Robson, who attended the wedding, conveyed the gift.

"Felicia," said her father, upon her return, "did you give him the check?"

"Yes, father," answered the dutiful daughter.

"What did he say?" asked Robson.

"He didn't say anything," replied Miss Felicia, "but he shed tears."

"How long did he cry?"

"Why, father, I didn't time him; I should say, however, that he wept fully a minute."

"Fully a minute!" roared Robson; "why, I cried an hour after I'd signed it!"—Chicago Record.

A Newfoundland Dog Nurse.

Mrs. Jennie P. Lane, of Smithport, Pa., has a big Newfoundland dog which is a first-class substitute for a nurse. It takes the baby riding in the carriage every day. The dog holds the handle with its teeth and wheels the coach as carefully as the infant's mother could.

Provision is to be made for greatly enlarging the British museum. Five and a half acres will be added to the nine acres already occupied, through purchase from the duke of Bedford.

"I don't see how you can tell which is the daughter and which is the son in this picture, they look so much alike with their ulsters on." "Oh, no trouble about that. The one that looks as if it could speak is the daughter."

An interesting story is told of a wealthy collector named James Ellsworth, who amuses himself by spending thousands of dollars every year in making additions to his various collections. Recently he came in possession of an 1804 dollar that has an interesting history, as its existence was not known. It appears that a negro received the dollar from his dying father, who had kept it as a means of remembering the year he became a freedman. The negro kept the coin for forty years and finally sold it to Mr. Driefus.

HARPER'S HISTORY OF THE WAR

Harper's Pictorial History is universally recognized as the best history of the war yet published. This superb work has never been sold for less than \$16 to \$30. It has been sold only by subscription and but a very few men have been able to buy it.

The pages are the same size as Harper's Weekly and the work contains all the illustrations appearing in that great paper during the war. The work was edited by Richard Grant White and Henry M. Alden and is authentic, complete and reliable.

We have made arrangements whereby we can furnish Gazette subscribers with this splendid history of twenty-six parts at ten cents a part. These twenty-six parts will contain over one thousand war pictures and will make two handsome volumes when bound.

Many official documents of priceless historic value are quoted in full in the copious foot notes, such for instance as Lincoln's inauguration speeches, articles of federation of the early states, constitution of the United States, ordinance of secession, and many important papers, speeches, etc. The war story is consecutive and very fascinating. The introductory chapters, leading up to the struggle, and the chapter on the reconstruction period, are by some of the first writers of the age.

The Kiwi.

The kiwi of New Zealand lays an egg which weighs fourteen and a half ounces, and the contents thirteen ounces. The living bird weighs only sixty ounces, so that the weight of an egg appears to be nearly equal to one-fourth of the whole weight of the bird.

Australia's Vast Coal Supply.

Australia mined 4,037,929 tons of coal last year. The supply is apparently inexhaustible and is counted on to be an important factor in the future industrial development of the country.

ALL OVER THE GLOBE

Dr. Pierce's Pleasant Pellets are known. They are far more effective in arousing the liver to action than the old-fashioned cathartic pills, calomel or other preparations, and are purely vegetable and perfectly harmless in any condition of the system. No care is required while using them.

They cure biliousness, sick headache, constiveness, sour stomach, windy belchings, "heart-burn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels.

Montgomery, Orange Co., N. Y. Dr. PIERCE: Dear Sir—I suffered untold misery with bleeding piles. I could get no relief night or day, until I commenced using your "Pleasant Pellets," and now for two years or more, I have not been troubled with the piles; if my bowels get in a constipated condition, I take a dose of Dr. Pierce's Pleasant Pellets, and the trouble is all dispelled by next day.

THE DENVER CONVENTION.

The lesson of the convention of the Republican League clubs at Denver is that the republican party was never in better condition, and that its prospects have never been brighter. From all parts of the country, the delegates brought the same tidings of abounding confidence and enthusiasm. The events of the past year have fully satisfied the people that a monstrous mistake was made when the democratic party was restored to power. In every respect, it has been demonstrated that the men now in control of the affairs of the government are incompetent and untrustworthy. They found the country prosperous and all classes of the people satisfied and happy; and their attempt to carry out the purposes of their party brought on a panic and produced general depression and misfortune. The logic of practical experience brought home to citizens in every line of business and industry the fact that they owed their past remarkable success to republican measures and politics, and that when a change was made it meant hard times. The disastrous results of democratic rule constitute a thorough vindication of the principles and methods that were voted down when the last president was elected; and if the case could be re-tried this year, it is very certain that the verdict would be emphatically different.

LEGISLATION AGAINST ANARCHY

The assassination of President Carnot has served to direct attention to the necessity of legislation for the prevention of such crimes, and for the general repression of anarchistic proceedings and tendencies. There are certain difficulties about the formulation of laws for such a purpose under our system of government, but our statesmen should be able to overcome them where the case so plainly calls for stringent means of protection. Our theory of liberty is so indulgent that mischievous persons can readily take advantage of it in the promotion of these designs; but there is no reason why a great blessing should thus be exposed to opportunities of perversion by the enemies of society. Like all other good things, the sacred right of freedom may be abused, and it will not do to say that authority is lacking to provide such limitations as are required to restrain anarchistic teachings and practices.

A Buffalo paper says John Sherman

"lacks a certain toughness of fiber requisite to a great statesman or leader." Few statesmen have stood up to a third of a century of hard work as well as John Sherman, yet it is more than likely that numerous leading politicians and senators have excelled him in a certain toughness.

Cleveland still wears the puzzled look that floated over his face when he read the declaration of Illinois democrats indorsing the administration "in all things it has done to give force and effect to the Chicago platform." No wonder he was mystified. The intent of that clause would mystify anybody.

McKinley gets a boost through the manifest preference for him shown by the delegates to the convention of the republican league clubs at Denver, and all the other candidates will now proceed to combine against him.

Senator Brice is right in saying that there is no necessity of holding a democratic state convention in Ohio this year; and it would be difficult to name any northern state in which there is anything to be gained by such a proceeding.

Can this Franklin McVeagh, who is carousing with the Hopkins-McDonald gang over the spoils of ward politics, be the same McVeagh who looked with such beautiful scorn upon place-hunters and office-seekers?

Grover Cleveland's administration has brought blight to everything in the country except the republican party—and the sugar trust.

BUSY PEOPLE.

Happenings of the Day In the Bower City Graphically Sketched By Reporters' For the Gazette—Here You See the Local Panorama Unfolded.

Mrs. Carrie Jacobs Bond will entertain a number of her Janesville friends tomorrow evening at the home of her mother, Mrs. J. B. Minor, 9 North Main street. The entertainment will be in the form of a "miracle" and Mrs. Bond has arranged a very attractive programme which will consist entirely of her own compositions. One particularly choice number "The Mothers Cradle Song" will be sung by Mrs. Ada Ash who has very kindly consented to interpret this selection for her old school friends.

Mr. and Mrs. J. W. Lawrence, of 70 North First street, entertained a company of twenty-five friends Sunday afternoon. The occasion was the third anniversary of the marriage of host and hostess. Refreshments were served and the company did not break until a late hour. Mr. Lawrence is E. C. Lloyd's right hand man, having been employed by him as horseshoer for five years.

Ernest L. Brundrett, one of the auditors of the Mutual Gas Improvement company, is in the city to take charge of the gas company's business until the new superintendent arrives. The new company will occupy the old office in the Waverly block. Mr. Brundrett is a gentleman of wide experience and represents the largest gas company in the country.

Mr. and Mrs. W. A. Sheldon, of Belvidere, and Charles St. Clair, of Maringo, who were called here by the death of their father, Thomas St. Clair, were entertained by Dr. Georgia E. Lake, No. 213 Terrace street, while in the city.

Ringling Brothers' circus train passed through the city on Sunday en route from Richland Center to Burlington, where the tents are pitched today. Tonight the train will again pass through the city en route for Delavan where the show exhibits tomorrow.

The Young Ladies Sodality of St. Mary's Congregation will hold an ice cream social on the lawn in the rear of the church tonight. The Bower City Band will furnish music. Public invited, the proceeds to be used for a charitable purpose.

The Wisconsin Carriage Top Co. had the largest trade last month they have ever experienced. Their buggies are becoming very popular, lots of them on the street. Watch their efforts this month.

Miss Cornelia has organized a new class in sight singing for girls and boys from 8 to 12 years of age, which will begin July 9, at 9 a. m. Terms 50 cents per month. Two lessons per week. Court Street church block, up stairs.

The ladies of the Presbyterian church will serve lunches on Wednesday the "Fourth" in the vacant store on the bridge. Lunch 25 cents. Ice cream and cake 15 cents. A cake sale also will be held.

Miss A. I. Hobert, teacher in the state school for the deaf and dumb at Delavan, and Miss Whitton, teacher in the school for the blind, left this morning for Chautauqua, to spend the summer vacation.

Dr. Coffee finding that there are several little bills around town that he knew nothing of, requests all parties having bills against him to mail to him at Galesburg, Ill., as he wishes to settle them.

W. H. Sargent's W. R. C. will, on the Fourth serve lunches of beans, sandwiches, tea, coffee, cake, ice cream, &c., in the store formerly occupied by W. G. Wheelock, South Main street.

Five salesmen busy all the time. No shoe store in the city can show such a record. Our customers say we are "foot fitters." It is egotistical to praise one's self. Brown Bros. & Lincoln.

The buggies made by the Janesville Carriage Co. are known to be the best in the market. A special sale of them is now on hand. The prices are lower than are asked for inferior buggies.

The regular meeting of the Business Men this evening should be well attended. There are many questions before the people of the city that need more thorough discussion.

All secret societies that will turn out July 4, are requested to send word to B. H. Baldwin so that positions can be assigned. Each society should appoint a marshal.

Rev. A. H. Barrington and wife of Christ church, started for Boston today, expecting to be absent six weeks visiting relatives and friends in New England.

MISS KENYON WINS
THE GAZETTE PIANOSHE HAD A TOTAL OF 143,958
VOTES.

Miss Ellen Holt Was a Good Second With 117,047 Votes—It Took Three Counters Nearly All Day to Get Through With the Mountain Of Ballots.

Three Cora Kenyon wins the piano. Three of the Gazette force worked on the count until 2 o'clock this afternoon. They made their way through a breastwork of ballots big enough to appall an election commissioner. When they finished they had these totals:

Miss Cora Kenyon	143,958
Miss Ellen Holt	117,047
Miss Mary Frink	40,883
Miss Francis Loucks	31,854
Miss Maria Gibbs	12,082
Miss Lahlie Foster	8,430
Miss Bertha Fross	861
Miss Bashie K. Pease	527
Miss Minnie Hayward	148
Miss Mary Ennis	77
Miss Sarah Logan	73

As a matter of fact the votes of the two leading contestants represent those of several candidates, quite a number of young ladies withdrawing in favor of one or two others during the last week. This could not be ruled against as long as the subscribers were willing that the votes which they gave for one young lady be transferred to another. It is of interest, however, to know that the standing of the four leading contestants would have been precisely the same had none of them been given a vote by any other candidate.

In other words, had no votes been transferred Miss Kenyon would still have been first, Miss Holt second, Miss Frink third and Miss Loucks fourth. The result was determined before the trading began. An unexpectedly strong showing was made by several young ladies who at first made slow progress.

Every effort had been made to insure fairness. The endeavor was to make each candidate depend on her own efforts. So faithfully have the contestants entered into the spirit of the affair that The Gazette's only regret is that there are not a dozen pianos instead of one.

A few moments' consideration is needed before the size of the vote cast can be fully appreciated.

Over 350,000 is the total! Besides the bushel baskets full of coupons it means a trifle over 400 new subscribers to The Gazette. Many of these are paid for a year in advance and all of them will be members of The Gazette family long enough so they will hate to drop out.

Nearly half of the new subscribers were added Saturday evening and late in the afternoon. The subscriptions came so fast that at 9 o'clock approached nothing but the mere names were enrolled and the details were filled in after the voting ended.

A gratifying feature of the contest is that even the losers admit the fairness of the arrangements.

"If I win it is all right, and if I lose it is all right," said one young lady Saturday night. "Whoever has the most votes is fairly entitled to the prize and there is no chance for an objection."

EDITH DOESN'T STAY REFORMED

From the Industrial School She Goes to the Poor Farm.

Edith Hammond was given a sentence of ninety days at the poor house this morning by Judge Phelps. Edith has been an inmate of the industrial school a number of years. For the past seven years she has worked for a Rock Prairie farmer, but recently took it into her head to indulge in some of her youthful capers and was sent adrift and brought up in the municipal court as a vagrant. She is about twenty-four years old.

Several Mechanics' Liens Presented in the Circuit Court Today.

Judge Bennett, in circuit court chambers, today is hearing testimony in the matter of a number of mechanic liens on the Forest Park property of P. S. Fenton. The amounts vary in sums, but the aggregate with a mortgage held by Mrs. S. Holdredge, amount, it is claimed, to more than the property would bring at forced sale at this time. The matters were not determined at 3 o'clock this afternoon.

Saloon Men Keep Clerk Bates Busy with Their Applications.

The saloon men are monopolizing the time of the city clerk and city treasurer to-day, making applications for license. "All the old dealers are coming in with their applications," said Treasurer Fathers this morning, "and I believe four or five new firms will apply, which swells the number to about fifty-five."

VISITING BALL PLAYERS BEATEN

Score Was 27 to 3 in the Sunday Game at Athletic Park.

The Beloit Rockford base ball aggregation did not draw a very large crowd to Athletic park Sunday afternoon. The game was very one-sided, the score being 27 to 3 in favor of the home club. Manager McGinley at one time stepped up to the manager of the visitors and offered to put \$1 on the home plate for his men to pick up every time they made a run.

Two games will be played here on the Fourth between the Athletics and the Chicago Brands one of the leading clubs in the Chicago league. Manager McGinley, while guaranteeing the public a first class game on this occasion, desires the public to understand that there is no money for those who are furnishing the sport, that there treasury is empty having all been paid to players and visiting clubs. He therefore urges the public to patronize the games, especially when they are guaranteed good playing.

A game of ball was played on Bunker hill Sunday morning between the Badger and Plumbers club resulting in a victory for the Plumbers by a score of 12 to 13. Conroy and Sullivan and Blakeley and Slightam were the batteries. J. H. Johnson umpired the game.

The Lightweights defeated the Riverweights yesterday morning on Bunker hill.

The Golden Eagles defeated a picked nine in the "patch" Sunday morning.

DIED IN THE COUNTY ASYLUM.

Mrs. Fitzgerald Passes Away and Is Buried in Mount Olivet.

Mrs. Fitzgerald, an old resident of Milton Junction died at the county insane asylum Saturday evening. Her remains were brought to the undertaking establishment of Daniel Ryan Sunday morning and were buried in Mount Olivet this morning. Funeral services, conducted by Rev. Father Roche, of St. Mary's church, at 9 o'clock. The pall bearers were Neal Gillispie, Patrick Reilly, John Reilly and Peter Hogan.

DARK DEED CHARGED
TO FIVE YOUNG MENLITTLE ESTHER FERRIN TAKEN
FROM HOME.

Decoyed Into a Stone Quarry North Of Beloit and Kept there Until Nearly Dead of Starvation, Exposure and Abuse—Five Arrests Made By Marshal Appleby.

Five tough hoodlums were arrested in Beloit today for being implicated in the abduction of a little Shopiere girl. It is said that the girl, after being missed from her home, was found in the woods near the Eclipse works, in the hands of a dozen or more tough characters, five of whom were captured by the officers.

The little girl was Esther Ferrin, of Shopiere. She was nearly dead from hunger, exposure and misuse when Marshal Appleby found her in the stone quarry north of the city last night. She was barely able to tell how she had been decoyed there by the young miscreants, who refused to let her go.

Her whereabouts was discovered by the marshal's following a man carrying her victuals. Warrants are out for several more of the youths besides the five who have been arrested. Shopiere farmers are highly indignant and are hunting down such of the scoundrels as have escaped over the line.

DOWN TOWN STREETS ARCHES

Fourth of July Decorations Prepared by the Fire Department.

Members of the fire department are at work constructing two handsome bunting arches which will be placed in the streets on the Fourth, one at the corner of Main and East Milwaukee street, spanning Main street and the other at the corner of West Milwaukee and River street, spanning Milwaukee street. The arches over the streets will be thirty feet high while those over the side walk will be twenty feet. The arches will be put in place Tuesday night. The frame work of the arches is made of iron.

NO MONEY FOR THE COURT.

Not a Dollar in Fines Paid to Judge Phelps Last Month.

The municipal court did not do a paying business during the month of June. There were nineteen convictions, however, four of which were appealed to the circuit court, eleven were sent to jail for various terms, two went to the county poor house, one was sent to Waupun, and one was allowed to "go." Not a dollar was paid in fines.

Wild Cherry Phosphate, a delicious temperance beverage. Directions: One teaspoonful of Wild Cherry is sufficient for an ordinary half pint glass. Sweeten with a teaspoonful or less of sugar. To make a gallon of beverage, use 2 to 2 1-2 ounces of Wild Cherry and a pound of sugar. The most convenient for every day family use is to make a syrup. To a 25 cent bottle of Wild Cherry use 1 1/2 pounds of sugar and 1 pint of water, hot or cold; mix all together until sugar is dissolved; then strain through cotton. One to one-half ounces of this syrup in a glass mixed with cold water makes a delicious and healthy drink, the same as we serve at our fountain every day.

LINENS ARE IN FORCE.

To Look Cool Is Half the Battle In Hot Weather.

Fashions are not an inspiring theme in the heat of summer. Theoretically they are always equally important, but practically the interest in them diminishes during the time when clothing, except of the most primitive sort, seems a burden. There are women heroic enough to lace tightly and wear velvet and fur during the warm season, but their days are evil, if not few—evil days seldom do seem few in number—and the effect is not pleasing enough to make it worth the suffering. To look cool is half the battle in hot weather, and that requires thin, loose garments.

Linens appear in force this season. A plain heavy weave is shown in colors guaranteed fast, tan, blue of various shades, green, rose and red. This makes ideal blazer costumes alone or used as trimming for white linen duck. Cotton duck suits are seen in still greater variety of tints, black and navy blue with hair stripes of white, being particularly neat. A thin lawn blouse may be worn under the blazer or a snug, bright colored vest, which is less cool, but smarter. With flowered dimity for house and country gowns and china or thin glass silks or grenadine for more elaborate toilets the fashionable summer wardrobe may be amply furnished without the aid of airtight satins and

SATIN COSTUME.

velvets. There is no limit to the possibilities of thin stuffs this year since ruffles, puffs, ribbons and lace are the accepted trimmings and allow of a thousand different arrangements and combinations. Black or white lace beading sewed on in bands forms a pretty decoration for muslins and may be left plain or threaded with baby ribbon matching the color of the goods. Lightweight wool crepons are shown in delicate shades, which are almost as cool as cotton goods and are more serviceable for seaside wear, as dampness does not affect them.

But we are supposed to discuss what is as well as what ought to be worn, and although the thin materials just mentioned are in vogue heavier ones are also fashionable. Those women who wore skating costumes open at the throat during the winter will probably be the ones to appear now in thick silks and standing collars in spite of the fact that the mercury has taken "excelsior" for its motto.

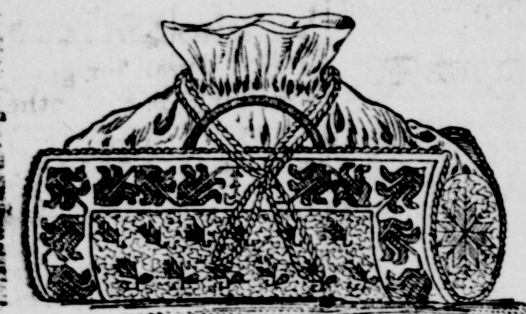

An illustration is given of a costume of two shades of satin. The plain skirt is of myrtle green satin, and the round bodice of the same shade is covered with lace, as is the lower part of the tight green satin sleeves. The sleeve puffs and folded belt are of almond colored satin, and the accordion plaited satin collar, forming four points, is of the same color and is bordered with marabout. JUDIC CHOLLET.

LAWS OF ANATOMY.

Some of the Painted Tapestries Are Fearful and Wonderful.

Painted tapestry for curtains, wall draperies and screens is very much in vogue at present, and some of the specimens shown are marvels, not of beauty, but of ignorance of all laws of anatomy and artistic effect. Figure subjects are almost invariably chosen by the tapestry painter, and nine times out of ten he or she, as the case may be, proudly produces a picture that would be a libel on a savant stuffed wax doll. If you want a piece of painted tapestry, do not buy it until you have consulted some capable artist friend, and thus avoid the chance of burdening yourself with an anatomical anachronism that will make the well informed person chuckle in his sleeve every time he sees it. Courtesy often compels him to listen in silence to the boasts of the possessor of some outrageous piece of so called artistic work, and he is divided between a desire to be appreciative of the thing shown him and his inability to truthfully praise it.

Speaking of painting, one of the latest ideas is the selling of the backs of hand mirrors, hair and clothes brushes and the handles of combs made of fine white china.

LINEN TRAVELING BAG.

These are to be decorated and fired and then fitted with glass or bristles. The thought is an excellent one and affords an opportunity for making unique, valuable and useful gifts.

Small detached Japanese heads have been lately introduced for use in fancy work. Both men and women are represented with long narrow eyes and real teeth and hair. The heads are fastened to wooden pegs, which serve as a means of attaching them to thermometers, penwipers, pin cushions and similar articles for which they are employed as a decoration.

An illustration is given of a traveling bag of Flemish linen. It is embroidered with black or red crewels in a cross stitch pattern. The round ends of the bag are kept in shape by circles of cardboard, over which the embroidered linen is stretched. Plain linen forms the lining and body of the bag, which is gathered on double drawstring strings. A leather handle is fastened to each side of the embroidered portion by which to carry the bag. THE MANCHESTER CANAL.

Fears That the Vast Enterprise Will Result in Financial Failure.

"I am afraid, after all the millions that have been spent upon it, that the Manchester ship canal will never pay expenses," said Percy Oglethorpe, an English cotton buyer to a Globe-Democrat man.

The opening of the canal was a big affair and one of the ships in the procession on that day was a cotton carrier, the Ohio, from New Orleans. Several ships, loaded at Mobile, New Orleans and Galveston with cargoes for Manchester direct, have made the trip since and as Manchester and the vicinity use the largest portion of American cotton the opening of the canal was an affair of considerable interest to the cotton states. The canal is wider than the Suez canal and when dredged out will have a depth of twenty-six feet, nevertheless it will never be navigable, with its present dimensions, for large trading steamers.

The Suez canal has neither current, nor wind to disturb it, hence steamers can safely navigate it which could not safely traverse the English canal because with their length and size, they would have to acquire a speed, to give them steerage way, incompatible with safe navigation. The fact seems to have been overlooked alike by the engineers and the enthusiastic promoters of the enterprise. It is true that small steamers—tramps, they are called—can make their trip all right. Such boats are the Ohio and the Venango, which latter boat recently carried a cargo of cotton from Galveston. But it took the Venango twenty-one days to make a trip which a regular liner would have made in sixteen days, and of course time is a valuable factor to consider. Tramps would never do for the Indian or Pacific trade, and besides the insurance rates on them are so much higher that it would equalize the difference in freight rates by reshipping at Liverpool. Another trouble is that steamers can not procure cargo ballast at Manchester, and have to procure it at Liverpool, often with a delay of several days. One line has attempted to overcome the difficulty by putting into service steam barges to convey Manchester freight alongside the steamer, which remains in the Mersey at Liverpool, but this is not much cheaper than the old system of shipping to Liverpool. It was an immense undertaking, and I would be sorry to see it fail, but I greatly fear for its future."

SHIP-SCUTTILING.

A Crime for Which the Punishment Used to Be Death.

Scuttling may be defined as the art of cutting holes through a ship's hull, either for the praiseworthy purpose of keeping her steady when stranded by filling the hold with water, and thus save the ship and cargo, or to sink her in order to obtain the money for which she is insured. It is the latter form of scuttling that we propose to deal with. A ship master is monarch of all he surveys, when remote from land and no other sail above the boundary line of sea and sky. Hence, there would be little difficulty in his way should he propose to scuttle his ship, either to injure or assist the owners thereof.

For this reason the laws against scuttling have always been very severe all over the world, says Chambers' Journal. By an act of congress passed in 1801 it was enacted that "any person, not being an owner who shall on the high seas wilfully and corruptly cast away, burn or otherwise destroy any vessel unto which he belongeth, being the property of any citizen or citizens of the United States or procure the same to be done, shall suffer death." English laws were similar. The last man executed in England for ship-scuttling was Codling, hanged on Deal beach about 1804 for scuttling a vessel in the Downs in order to obtain the sum for which she was insured. Less drastic laws prevail now, and the gravity of such a case is met by penal servitude and the cancelling of certificates should the offenders be shipmasters or officers.

Remarkable Leap of a Horse.

One of the most remarkable leaps ever recorded as having been made by a horse, was that of Chandler, an English steeplechaser, while running in the Leamington cup at Warwick in 1847. Bell's Life of March 28, 1847, records it, as follows: "Chandler was following, there being two other horses and riders leading. At the brook Chandler's rider expected that trouble would come to the leaders. Sure enough they all piled up together, and with one monstrous leap he cleared the brook and the flounder. After careful measurement it was put on record as being a leap of exactly thirty-nine feet."—St. Louis Republic.

Civil Service Examination.
The Civil Service Commission at Washington has ordered that an examination be held in this city on Saturday the eleventh day of August, 1894, commencing at half past 1 o'clock p. m. at the Central School Building in Janesville, Wis., for the grades of clerk and carrier in the city for office. Only citizens of the United States can be examined. The age limitations are as follows: For clerk, not under 18 years; for carrier, not under 21 nor over 40, for messenger, tsamper, etc., not under 16 nor over 45. No application will be accepted for this examination unless filed with the undersigned on the proper blank before 12 o'clock noon on Monday, July 23d.
The civil service commission takes this opportunity of stating that the examination are open to all reputable citizens who may desire to enter the postal service, without regard to their political affiliations. All such citizens, whether democrats or republicans, or neither, are invited to apply. They shall be examined, graded and certified with entire impartiality, and wholly without regard to their political views, or to any consideration except their efficiency, as shown by the grades they obtain in the examination. For application blanks, full instructions, and information relative to the duties and salaries of the different positions, apply at the postoffice, Janesville, to
